Automation and Machine Intelligence

Hi ! Let's start our story. We are a small team with an unique vision.

We are a small team of passionate machine learning enthusiasts with an aim to solve enterprise problems

We aim to facilitate business processes by **automation** and **machine intelligence**

How much time does it take to implement full solution?

Full solution can be deployed in 50-60 working days.

Where the solution can be deployed?

Solution can be deployed as a Web Portal over cloud. Also the same solution is deployable on Android and I-OS.

What is the Tech Stack you use?

We are primarily Linux and Python Shop. We use Backbone.JS, React.JS, JQuery, Flask, Node.JS, Scikit-Learn, TensorFlow, Gensim, PostgreSQL, Redis, Elastic Search and React-Native

What section you are targeting for Bank?

We are targeting Corporate. However same solution is applicable for Retail Banking too.
